Rating Agency Update

On January 19, 2020, Fitch Ratings affirmed Canacol Energy Ltd.'s Long-Term Foreign and Local Currency Issuer Default Ratings (IDRs) at 'BB-', and the Corporations senior unsecured notes at 'BB-/RR4'. The Rating Outlook has been revised to Positive from Stable.

The Fitch Ratings report noted the following key rating drivers as factors for the rating and outlook revision to Positive:

- Contracted revenues, noting Canacol's long-term, take-or-pay contractual structure at fixed prices with strong credit quality off-takers significantly lowers the company's business risk as this mitigates exposure to price and volumes risk.
- Predictable cash flow generation
- Strong capital structure
- Growing production profile
- Regional importance, noting Canacol is a key gas producer and supplier for the highly dependent Caribbean coast of Colombia.
